NEW YORK TIMES BESTSELLER • “Magisterial . . . [A] rich portrait of ancient Egypt’s complex evolution over the course of three millennia.”—Los Angeles Times NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE Washington Post • Publishers Weekly In this landmark volume, one of the world’s most renowned Egyptologists tells the epic story of this great civilization, from its birth as the first nation-state to its absorption into the Roman Empire. Drawing upon forty years of archaeological research, award-winning scholar Toby Wilkinson takes us inside a tribal society with a pre-monetary economy and decadent, divine kings who ruled with all-too-recognizable human emotions. Here are the legendary leaders: Akhenaten, the “heretic king,” who with his wife Nefertiti brought about a revolution with a bold new religion; Tutankhamun, whose dazzling tomb would remain hidden for three millennia; and eleven pharaohs called Ramesses, the last of whom presided over the militarism, lawlessness, and corruption that caused a political and societal decline. Filled with new information and unique interpretations, The Rise and Fall of Ancient Egypt is a riveting and revelatory work of wild drama, bold spectacle, unforgettable characters, and sweeping history. “With a literary flair and a sense for a story well told, Mr. Wilkinson offers a highly readable, factually up-to-date account.”—The Wall Street Journal “[Wilkinson] writes with considerable verve. . . . [He] is nimble at conveying the sumptuous pageantry and cultural sophistication of pharaonic Egypt.”—The New York Times

Focusing on the experience of a young girl and her family, this book recreates the daily life of middle-class residents of the ancient town of Lahun during Egypt's Middle Kingdom, or Classical Age. After placing the town in its accurate historical and geographical context, the author chronicles the everyday life of its inhabitants - from their education, occupations, and food preparation to their religious rituals, healing techniques, marriages, births, and deaths. Throughout the book, authenticity takes center stage. This perfect snapshot in time has been painstakingly recreated using recently published textual data and archaeological findings directly from the settlement of Lahun as well as from other contemporary settlement and mortuary sites. The mummy of Takabuti is one of the best known antiquities in the Ulster Museum, Belfast. Takabuti was a young woman who lived in Egypt during a tumultuous period, c. 600 BC. Her mummy was unwrapped and investigated in Belfast in 1835. While the focus of the book is on Takabuti, it shows how the combination of archaeological, historical and inscriptional evidence with multidisciplinary scientific techniques can enable researchers to gain a wealth of information about ancient Egypt. This not only relates to the individual historical context, ancestry and life events associated with Takabuti, but also to wider issues of health and disease patterns, lifestyle, diet, and religious and funerary customs in ancient Egypt. This multi-authored book demonstrates how researchers act as 'forensic detectives' piecing together a picture of the life and times of Takabuti. Questions addressed include - Who was Takabuti? When did she live? Where did she come from and where did she reside? What did she eat, and did she suffer from any diseases? Did she suffer a violent death, and how was she mummified and prepared for burial?
